An Upazila belong to Bogra district named Adamdighi neglected tribe of this upazila is santahar cha-bagan Harijan colony .the horijon colony is oppressed with different types of problems. They are deprived of any opportunity from beginning birth. They are far distance from the light of education. so from 2009 ARCO have working colony with the economic cooperation of HEKS Switzerland for the social development and livelihood development and change of luck/fate.Bilkis Nahar CDO and Moly chakrabarty CADO have been working in this colony as the representative of ARCO. At first they realized understand to going that colony for work that it is different to change their livelihood but not impassible. They think that if they can involve the adolescents to work to overcome the social problems. So it is possible to change situation of the colony. With this trust CDO Bilkis Nahar and CADO Moly Chakrabarty firstly developed adolescent group and later on they discussed to sitting with CDO Executive committee about the responsibilities subject for changing of livelihood. After hearted of all talk/speech adolescent group and the members of CDO committee have give the commitment of any types of cooperation for changing the luck of harijan colony. After the commitment of cooperation CDO Bilkis Nahar and CADO Moly Chakrabarty firstly identify the problems sitting with the adolescent group and prepare an action plan to completion the problem. On the other hand adolescent group devised their responsibility among themselves and start working according the action plan. At first they have faced many difficulties to doing the work. Especially the parents of adolescent group have raised different obstructive situation. But later on when they found that they have been doing a good Job/work then the parents of adolescent group encouraging them. Adolescent group have been doing the cleaning work of the colony, They also give effort to school going children protect early marriage, prevent drug addiction with other implementation of action plan have taken by them and start working according to the action plan. They have been doing work of awareness building of colony people to going door to door e.g. house health latrine, essential water flaw after using latrine don't eat uncovered food before eating and after latrine use two hands will be washed with shop personally always stay cleaning ness protect early marriage prevent drug addiction etc. Joint and constant effort of adolescent group many changes comes to present situation comparison form before as for example diseases contamination reduced increased the cleaning ness of the colony percentage of drug addiction reducing day by day increased attention of people for attending of cultural program and increased the percentage of education. Now this adolescent group shows a dream that days are not far when the colony becomes as a dream land which they have thought/wanted. we have also seen more dream that as adolescent group have give the real figure of the colony of their dream.

Seeing the response of them it is think that there was a speed of Kazi Nazrul Islam weare the Might weare the strength and we are the student group.

There is a harijon colony which is belong to Naogaon district adjacent of chancha bazar of Naogaon sadar.They are neglects shelterless and untouchable.This harijon colony is oppressed with different types of problems.They are deprived from different oppertunities from the beginning of birth.From child to adolescent all of them are deprived from the light of education.They have no access to development work due to lac of light of education and awareness.So ARCO has been working from 2009 with the financial cooperation of HEKS Switzerland for the livelihood development and change the luck of them.Going to work ARCO has realized that it is difficult to change their livelihood without education and awarness so at first ARCO has work colony and later on defferent institution for create situation /oppertunity to
